

ICC Presentation Board and Brochure

Brain Dump Feedback 05/13/16

- Do we need a data element on the board
 - The document that is on there is too small as is
- Love the Ferris Wheel
- Looking at the language around “delay” on the board
 - Pull new information from the CIS vision to reword this
- First flap inside the brochure...language around “problem”
 - Change to “identify areas to improve”
- Contact ICC bullet (inside middle)
 - Do we want them to only contact with positive stories?
 - “Faces and names” – is this what we mean?
 - CHANGE: “faces, experiences, and stories”
 - What do we mean by “Vermonters”?
 - Families in Vermont instead?
- Cover of the brochure...use the language in the CIS contract for “special needs”
- Back cover of the brochure...look at the language around a CIS centric model rather than E.I. centric
 - “system of care” may turn some parents away from wanting to advocate
 - Look at Let’s Grow Kids language
