| Updated as of: June 2016 | |

Part C/ Early Intervention: Kinds of Services

IDEA – Part C early intervention services brings together families and service providers from many aspects of the community, including public and private agencies, parent child centers, local school districts, and private providers. Supports and services come together to meet each child's unique needs and the needs of their family in their home and community. Payment for services comes from a variety of sources, including insurance, Medicaid, participating agencies, local schools, family cost share, etc. By assisting in the coordination of locally available services, Children's Integrated Services is working to ensure that Vermont's young children and their families have access to the widest possible array of early intervention services.

Early intervention services may include the following:

1. Audiology
2. Assistive Technology
3. Counseling/Psychological
4. Family training, counseling and home visits
5. Medical Evaluation (for diagnostic purposes only)
6. Nursing
7. Nutrition
8. Occupational Therapy
9. Physical Therapy
10. Service Coordination
11. Social Work
12. Special Instruction
13. Speech/Language
14. Transportation
15. Vision
